Midlothian, VA 23112 • Located behind Bone Fish Grill off of Hull Street

(804) 744-4495

FLU FACTS

- By immunizing early you protect your child from contracting influenza and prevent spreading the flu to others
- The 2010–2011 vaccine will provide protection from the H1N1 flu virus and the seasonal flu
- Flu mist is recommended (for over 2 years of age) because it provides a longer duration of protection, up to one year
- The CDC recommends 2 doses of the flu immunization, one month apart, for all children under the age of 8 years
- Individuals who received the 2009 H1N1 flu vaccine or had the H1N1 flu in 2009 should still receive the 2010–2011 seasonal flu vaccine
